Caribbean Paradises & Extraordinary Vistas: Round-Trip Barbados Aboard Sea Cloud

Dear Members and Friends of The Metropolitan Museum of Art,

In February 2023, join me for an inspiring winter escape to the sunny Caribbean islands. Set sail on a round-trip journey from Barbados aboard the original Sea Cloud. This sea voyage will illuminate the intriguing history of these idyllic paradises, once vital stops on transatlantic trade routes, bringing goods like sugar and mahogany to U.S. shores. As a historic homes scholar, I am excited to introduce you to meticulously landscaped colonial estates and private collections dating back centuries on exclusive tours.

Throughout our journey, you will learn the little-known story of how the Caribbean helped shape America's first major art movement. Awed by the Caribbean's natural beauty, 19th-century landscape painters such as Frederic Edwin Church flocked to the region to capture its diverse flowers, plants, and trees. I plan to lecture on these artists as you witness the extraordinary vistas reflected in many of their compositions.

From Barbados, we'll call at tiny Carriacou, where we will tour a former cotton ginnery. Now a museum, this space houses artifacts from early indigenous Arawak and Carib people as well as English and French colonial furniture, glassware, and pottery. After a day sailing the Caribbean, we will step ashore on Nevis to discover its marvelous botanical garden, which hosts diverse and rare flora in its rainforest conservancy. On the neighboring island of St. Kitts, where Alexander Hamilton's mother once lived, we'll explore an art-filled 18th-century estate. Fascinating American Revolution history awaits in the Îles des Saintes, where we'll take in amazing views from the 17th-century Fort Napoléon. In Soufrière, a town on the island of St. Lucia, we will meander through a magnificent garden before we return to Barbados for disembarkation.

Throughout this voyage, enjoy opportunities to swim in the Caribbean's turquoise waters and dine on deck as the gentle trade wind fills the ship's 32,000 square feet of sails. I hope you join me on this rejuvenating and deeply enriching winter journey.

Sincerely,

Alice W. Schwarz

**Sea Cloud**

With her rich mahogany and gleaming brass, the legendary Sea Cloud travels under 30 billowing sails trimmed by hand. Her original owners, heiress Marjorie Merriweather Post and financier E. F. Hutton, desired a craft like no other. They spared no expense to create the largest private sailing ship ever built and in 1931, Sea Cloud was launched. In the '30s and '40s, as she sailed the world, the four-masted beauty was host to leaders including the Duke and Duchess of Windsor, Franklin D. Roosevelt, and Sweden’s King Gustavus V. Now carefully restored by a team of master craftsmen, this great lady continues to offer elegant quarters, fine dining, and impeccable service. Praised by the world’s most discerning travelers, Sea Cloud receives consistently high rankings from Condé Nast Traveler. Please note: Sea Cloud does not have an elevator.
